

St. Croix East End Marine Park VOLUNTEER SUPPORT NETWORK Volunteer Identification Survey

The Volunteer Support Network (VSN) was created to actively recruit and engage the local St. Croix community in the management of the East End Marine Park (EEMP) so they become strong supporters of the EEMP, provide regular feedback to EEMP staff on park management and usage and ultimately gain a sense of ownership for the EEMP so that the park will thrive and the goals of the park will be enhanced.

The purpose of this survey is to identify residents of St. Croix who love our island and wish to preserve, maintain and share our bounty with others in our East End Marine Park. Everyone has passions, skills, background and talents that can enhance the mission of the EEMP. If you believe that volunteering with the EEMP is something you would enjoy, please complete the survey and return to: **Melanie Feltmate via MAIL-The Nature Conservancy, 3052 Estate Little Princess, St. Croix 00820, FAX-(340) 718-1613, EMAIL ATTACHMENT mfeltmate@tnc.org, or DROP OFF at EEMP.** Based upon your responses, you will be contacted to begin your contribution to EEMP, St. Croix, and our U.S. Virgin Islands. Thank you for your interest!

NAME _____

St. Croix ADDRESS _____

St. Croix PHONE NUMBER _____

E-MAIL ADDRESS _____

Check ALL the following that apply to you.

As "**Friends of the Park**" develops, would you be interested in becoming a member? ____

ORIENTATION AND TRAINING is essential for you to enjoy your volunteer experience and be most effective in advancing the mission and goals of the EEMP. Please be aware that a 3-hour orientation session will be scheduled on a regular basis to accommodate your personal schedule and assist you in getting involved with EEMP as quickly as possible. Additional training to meet the requirements of your particular volunteer involvement will be provided as needed.

We thank you for your interest in EEMP and look forward to working with you.

*This survey is being conducted in collaboration with the
Department of Planning and Natural Resources, St. Croix East End Marine Park*
